J. I. BAUGHER, Ph.D. *Superintendent of Hershey, Pa., Public Schools—Supervisor of Demonstration School and Associate Professor of Education*

G. E. SCHWEIGERT, Ph.D. *Professor of Mathematics*

LULA M. RICHARDSON, Ph.D. *Professor of French Literature*

GENERAL STATEMENT

The Sixteenth Summer Session of Lebanon Valley College will be conducted on the college campus in Annville. A demonstration school in the field of education will be conducted at the same time in Hershey, where the Board of Education has generously tendered the college the use of their modern school plant for this purpose.

REGISTRATION

Registration by mail in advance of the opening date of the session is urged. Applications for admission and registration will be received by the secretary up to and including Monday, June 22. Address, Annville, Pa. Due to preliminary arrangements required for the accommodation of persons desiring work in practice teaching, registrations for this work must be filed with the secretary, together with the laboratory fee of eighteen dollars (\$18.00), not later than June 1. Enrollments in practice teaching are limited in number and applications will be accepted in the order of their filing. Accommodations for applicants in practice teaching after June 1 may be arranged but can not be guaranteed.

CREDITS

Certificates will be issued to all students showing the courses attended, grades, and number of semester hours' credit. Courses taken during the Summer Session are credited towards the college degrees. One hundred twenty-six semester hours of academic credits are required for the bachelor's degrees. For complete information concerning the requirements for degrees the candidate should refer to the college catalogue or address the Registrar.

EXPENSES

A registration fee of \$1.00 is charged each student.

The tuition fee is \$7.00 per semester hour credit.

A laboratory fee is charged for Science and Demonstration School Courses.

The charge for board and room is \$8.00 per week, \$48.00 per term.

The entire charge for registration, tuition, board and room for the term is therefore \$63.00--\$91.00.

The fees are payable at the time of registration as a condition of admission to classes.

NOTICE TO BOARDING STUDENTS

Each room in the Men's Dormitory is furnished with a cot, chiffonier, mattress, one chair and table for each occupant. Students must furnish their own bedding, carpets, towels, napkins, soap, and all other necessary furnishings.

Each room in the Women's Dormitory is furnished with bed, mattress, chair, dresser, and table. All other desired furnishings must be supplied by the student. North Hall, the main dormitory for women, will be assigned to the use of women students at the summer term.

One light is furnished for each occupant of a room. Any additional lights must be paid for by the student.

The more desirable rooms will be reserved in the order of application. No fee is required. Address the Secretary promptly in order that the most attractive room available may be reserved for you.

ARRANGEMENT OF COURSES OF STUDY

Lebanon Valley College offers two courses of study leading to the Baccalaureate degree:

(1) A course leading to the degree of Bachelor of Arts (A. B.)

(2) A course leading to the degree of Bachelor of Science (B. S.)

The total number of credits required of candidates for these degrees is,

LEBANON VALLEY COLLEGE

in each case, 126 semester hours of academic credits and 4 in physical education.

Candidates for degrees must also obtain a minimum of 130 quality points, computed as follows: for a grade of A, 3 points for each credit hour; for a grade of B, 2 points; for a grade of C, 1 point. No quality credit will be given for a grade of D.

As part of this total requirement, every candidate must present at least 24 semester hours in one department (to be known as his Major), and at least 18 semester hours in another department (to be known as his Minor). Majors in Education are required to take two minors. Both Major and Minor must be selected not later than the beginning of the Junior year, the Minor to be suitably related to the Major, and chosen with the advice and approval of the Head of the Major department.

The A. B. degree will be awarded to those fulfilling the requirement for a Major in the following departments: Bible and New Testament Greek, English, French, German, Greek, History, Latin, Mathematics (Arts option), Political and Social Science, Philosophy and Religion. The B. S. degree will be awarded to those fulfilling the requirements for a Major in the following departments: Biology, Chemistry, Mathematics (Science option), Physics, Business Administration, Education, and Music Education.

GENERAL REQUIREMENTS

Certain courses embodying the fundamentals of a liberal education, are required of all students. These courses, which vary slightly according to the degree sought, are as follows:

<i>A.B.</i>	<i>B.S.</i>	
Bible 14, 52 or 82	<i>In Physical Sciences</i>	<i>In Education</i>
English 16, 26	Bible 14, 52 or 82	Bible 14, 52 or 82
*French 16 or	English 16, 26	English 16, 26
German 16	French 16 or	French 16 or
History, four hours,	German 16	German 16
exclusive of Hist.	History, four hours,	History, four hours,
16	exclusive of Hist.	exclusive of Hist.
Philosophy 32	16	16
Philosophy 26 or	‡Math. 13 and 23, 46	Philosophy 32
Economics 16 or	Philosophy 32	Psychology 14, 23
Pol. Science 16 or	Philosophy 26 or	Economics 16 or
Sociology 13 & 23	Economics 16 or	Pol. Science 16 or
Biology 18 or	Pol. Science 16 or	Sociology 13 & 23
Chemistry 18 or	Sociology 13 & 23	Biology 18 or
Physics 18	Biology 18	Chemistry 18 or
Psychology 14, 23	Chemistry 18	Physics 18
Physical Education	Physics 18	Physical Education
Hygiene	Physical Education	Hygiene
	Hygiene	

* Twelve semester hours of Foreign Language are required of all candidates for the A.B. degree; six hours of this total must be from French 16 or German 16.

‡ Pre-Medical students who are majoring in either Biology or Chemistry may substitute an elective for Math. 46.

For explanation of numbers used above see the departmental announcements.

COURSES LEADING TO THE BACCALAUREATE DEGREE

An effort is being made by the College to offer in the Summer Session and the Extension Department all the General Requirements for the Baccalaureate degree. Most of these courses are announced for the present year, and the remainder will be made available at an early date. In courses where six semester hours are required, the departments will normally offer two hours in Summer School and four hours in a Supplementary Extension Course. For the convenience of those working towards a degree, a full statement of the requirements is printed above.

SUMMER SCHOOL BULLETIN

SPECIAL REQUIREMENTS

In addition to the General Requirements listed above some of the departments require students majoring therein to take certain additional courses in subjects closely related to the Major.

Students outlining a course for a degree should communicate at once with the Head of the Department in which they intend to major.

Candidates for the Baccalaureate degree who desire to be admitted to advanced standing, by virtue of work done in other institutions, should lose no time in having their credits evaluated by the Registrar, in order that they may be informed as to what requirements they must meet for graduation.

Bachelor of Science with Education Major. Teachers College credits from recognized institutions are allowed on the following basis: work of a professional character will be equated on the basis of semester hours. Graduates who have taken the full two years' normal course based upon four full years of high school work usually receive approximately 60 semester hours, though each case is evaluated individually. A total of 126 hours of academic credit is required. For full information address the Department of Education, Lebanon Valley College.

VISUAL EDUCATION

On October 10, 1934 the State Council of Education approved the following regulation with respect to the preparation of teachers: "All applicants for permanent teaching certificates on and after September 1, 1935, shall be required to present evidence of having completed an approved course in visual and sensory techniques."

Lebanon Valley College includes among its offerings for the 1936 summer session a course in Visual Education. This course has been approved by the State Department of Education and is open to undergraduates as well as post-graduate students.

THE EXTENSION COURSES

To accommodate the needs of teachers in service, and for the convenience of those who are unable to pursue the work of the college in regular course by residence on the campus during the winter months, an extension department has been established. Extension courses for 1936-1937 will be announced at the summer session. They rotate from year to year to enable students to complete the work leading to degrees by residence during the summer sessions, which are coordinated with the extension plan in the offering of required courses.

RESIDENCE REQUIREMENTS

As a pre-requisite to the granting of all degrees the candidate must have completed a minimum of 30 semester hours of work in regularly conducted classes on the college campus. Teachers in service may meet this requirement by attending the Summer School on Friday and Saturday classes held during the year at the college. Credits earned in extension classes and at the Hershey Demonstration School are not residence credits.

SOCIAL LIFE AND RECREATION

The college recognizes that social activities and recreation have a proper place in cultural development. Accordingly, a series of social events and informal outings of students and faculty are fitted into the summer program. These include week-end dances, twilight concerts, and campus song fests. Students interested in dramatics are given an opportunity to participate in a play staged during the summer term. Tennis, swimming, hiking, picnics, and golf are included in the attractive recreational program. A committee of students and faculty arrange a diversified program of social activities.

Annaville, the home of Lebanon Valley College is ideally situated on the Benjamin Franklin Highway, twenty miles east of Harrisburg. Mt. Gretna, nationally famous summer resort, lies but seven miles south. Hershey, Pennsylvania's recreational center, is located seven miles west and is easily reached by bus, train or auto.

SUMMER SCHOOL BULLETIN

DESCRIPTION OF COURSES

BIBLE

DR. RICHIE

S42. The Christian Church. A study of the growth of Christianity from the primitive church to the present day, with special emphasis on the origin and growth of denominations. Two semester hours credit.

S62. Principles of Religious Education. A fundamental course investigating some of the theories, principles, and problems of Religious Education. Two semester hours credit.

S92. Character Education.—A survey of basic principles, theories, and methods in character building in the field of religion and society in general. Two semester hours credit.

BIOLOGY

DR. LIGHT

Biology S16. General Biology.—A course in the general principles of Biology including the consideration of both plants and animals, their relation to their environment and to each other, the principles of metabolism, growth, differentiation, adaptation, reproduction, evolution and human welfare.

The summer period offers a distinct advantage for biological work in that much more of the work may be done in the natural habitat of the organisms under consideration.

The work will require about six hours per day and will be divided between the field, the laboratory or the class room as best meets the requirements of the material being studied. Six semester hours credit.

CHEMISTRY

DR. BENDER

S26. Qualitative Analysis.—Two hours lectures and a minimum of four hours of laboratory work daily. Theories and principles of analytical chemistry. A study of the systematic methods of separating and detecting all of the ordinary metals and acid radicals.

The laboratory work includes the analysis of about thirty solutions and solids increasing in complexity from simple salts to complex insoluble artificial mixtures. Arrangements can be made for securing two additional credits through post-summer school work. Laboratory fee—\$15.00. Six semester hours credit.

S46. Organic Chemistry.—Two hours lectures and a minimum of four hours of laboratory work daily.

The course includes a study of the sources, classification, and type reactions of organic materials, of food-stuffs and their relation to nutrition, dyes, pharmaceuticals, explosives, coal tar intermediates, manufacturing processes, and recent developments in this field of Chemistry. The course includes a carefully selected series of demonstrations, the display of a large number of representative materials, and the use of about one hundred charts and slides specially prepared for this course.

The laboratory work consists of about sixty experiments covering the preparation and study of a wide range of representative compounds. Arrangements can be made for securing two additional credits through post-summer school work. Laboratory fee—\$15.00. Six semester hours credit.

LEBANON VALLEY COLLEGE

EDUCATION AND PSYCHOLOGY

DR. REYNOLDS and DR. BUTTERWICK

EDUCATION

S42. Educational Sociology.—The intent of this course is to articulate the school with the other institutions of society, the home, the church, industry and the state, with the view of developing a more perfect correlation among the institutions dealing with the social welfare of mankind. Two semester hours credit.

S112. Technique of Teaching.—This course is intended especially for Elementary and Junior High School teachers. The major emphasis will be given to the study of special methods and devices in the principal elementary school subjects. Some attention will be given, however, to a few of the more general methods, such as supervised study, socialized recitations, and the project method. Two semester hours credit.

S131-B, or S132-B, or S133-B. Directed Observation.—(For course description see Demonstration School, Page 11.

S136. Observation and Student-Teaching.—(For course description see Demonstration School, Page 11.

S202. Visual Education.—The psychology of visual and sensory aids to learning and their administration will be studied. Special attention will be given to the sources and types of visual aids which are within the means of the ordinary school system and classroom teacher. Lectures, readings, reports, demonstrations and individual projects. The State course will be followed. Laboratory fee \$2.00. Two semester hours credit.

PSYCHOLOGY

S42. Psychology of Adolescence.—A study of the physical and mental changes which characterize adolescence. The questions of rate and variation in learning, motive, personality, disturbances and control of behaviour will be handled. This course has been approved by the State Department of Education for professional credit. Two semester hours credit.

ENGLISH

DR. STRUBLE

S12. Essay Writing.—Analytical study of English and American essays by types. Individual instruction in the composition of essays. This is fundamentally a composition course, and will be accepted as a substitute for one semester of freshman composition. Two semester hours credit.

S152. History of the English Language.—Historical study of English sounds, inflections, and vocabulary. Standards of correctness; current usage. Recommended especially for prospective teachers of English composition. Two semester hours credit.

S522. American Prose.—Historical survey of the leading American prose writers from Franklin to the present day. Two semester hours credit.

FRENCH

DR. RICHARDSON

S06. Elementary French.—This course is intended for those who begin French in college. Its aim is to enable the student to write simple French sentences, to carry on a conversation in easy French, and to read French of ordinary difficulty. College credit will be granted for this course but it cannot be counted toward a Major. Three hours of class work daily. Six semester hours credit.

SUMMER SCHOOL BULLETIN

GERMAN

DR. STONECIPHER

S16. "Kulturkunde."—The making of modern Germany, its geography, its institutions, its social and artistic life, illustrated by maps, pictures, and readings from contemporary literature. This course is not only a preparation for the study of German literature but is intended also for those who wish to use German as a tool for advanced work in science and other fields. Six semester hours credit.

NOTE: For the convenience and accommodation of persons studying language the college has adopted the plan of offering a full year of credit in each language in the summer session. Students taking language have three recitation periods daily and concentrate their efforts in a single field.

MATHEMATICS

DR. SCHWEIGERT

S13. Advanced Algebra.—Covering ratio and proportion, variation, progressions, the binomial theorem of undetermined coefficients, logarithms, permutations and combinations, theory of equations, partial fractions, etc. Three semester hours credit.

S23. Plane Trigonometry.—Definitions of trigonometric functions, goniometry, right and oblique triangles, computation of distances and heights, development of trigonometric formulae. Three semester hours credit.

PHILOSOPHY

DR. BUTTERWICK

S22. History of Philosophy.—In this course the aim will be (1) to trace the development of Philosophy, pointing out what of permanent value each system as it arose contributed toward a final solution of the nature of being, and (2) to show the interaction between philosophic thought and the practical life of the period during which it flourished. Two semester hours credit.

S32. Ethics.—The aim of this course is to acquaint the student with the academic ethical problems, and to effect an awakening and a strengthening of the moral sense. Two semester hours credit.

PHYSICS

PROFESSOR GRIMM

S16. College Physics.—A survey of the fundamental laws of Physics in the fields of mechanics, electricity and light. One hour lecture and recitation daily and four hours laboratory. Six semester hours credit.

POLITICAL AND SOCIAL SCIENCE

PROFESSOR GINGRICH

POLITICAL SCIENCE

S52. Foreign Relations.—A study of the history and development of world politics as a background to modern political movements particularly as they affect American foreign policies. Two semester hours credit.

LEBANON VALLEY COLLEGE

SOCIOLOGY

S32. Criminology.—A study of the causes of crime and its effects upon society, punitive legislation, courts and their functions, prison systems, parole, and the crime problem generally. Two semester hours credit.

(Educational Sociology. See **Education S42**).

ECONOMICS

S22. Business Law.—An introduction to the study of business law covering the subjects of contracts, agency and bailments. Two semester hours credit.

Campus Scene

THE DEMONSTRATION SCHOOL

Lebanon Valley College is pleased to announce the continuation of the training school in grades 7 to 12, conducted as part of the 1936 summer session. Through the generous co-operation of the Board of Education of Hershey, Pennsylvania, these training courses will be conducted in the splendid public-school buildings of that town. Because of the high standard of the Hershey schools and their equipment, and by reason of the advantages offered by the community for project work beyond the school room, an opportunity for training of the highest order is afforded students preparing to enter the teaching profession. Hershey children will be in attendance. The college has engaged the services of master teachers of the highest qualifications and proved experience. Practice teachers and observers will be under their guidance and the supervision of Dr. J. I. Baugher, Superintendent of Hershey Public Schools.

The purposes of the school are three-fold: First, to provide a superior type of secondary school during the summer session for observation and student-teaching; second, to demonstrate modern methods of teaching; third, to provide sufficient observation, participation, and student-teaching to meet the certification requirements of Pennsylvania and other states for teachers on the Junior-Senior High School level.

Students may be in residence in Annville while attending the demonstration school at Hershey. The distance between Hershey and Annville is seven miles and transportation accommodations will be arranged.

Because the number of students that can be accommodated is limited, and arrangements must be made according to the number of enrollments in the school, registrations for demonstration school work must be filed with the secretary of the summer school on or before June 1st. Students enrolling later cannot be guaranteed accommodations and should communicate personally with the secretary to avoid disappointment.

Fees for demonstration school work are \$7.00 per credit. An additional laboratory fee of \$18.00, payable at the time of registration, is required of persons taking practice teaching.

COURSES OF INSTRUCTION

S131-B, or S132-B, or S133-B. Directed Observation.—This course may be taken independently or in connection with Education S136-A at Hershey or in addition to any other course given in the Lebanon Valley College Summer Session. Five hours per week for six weeks together with five written reports are required for one semester hour credit. Arrangements may be made to take either one, two or three semester hour credits.

S136. Observation and Student-Teaching.—This course is given in the Public Junior-Senior High School at Hershey, Pennsylvania, and consists of observation, participation, and actual teaching in the Demonstration School. Individual and group conferences are held with the Director of Student-Teaching and the critic teachers. Prerequisites: Introduction to the Study of Education and Educational Psychology. Six semester hours credit.

S133-A. General Methods of Teaching in the Junior and Senior High School.—This course deals with such problems as aims and purposes of a modern high school, methods of teaching on the high-school level, discipline, and tests and integrating of high school courses with the interests of the community. Offered at Hershey by Dr. J. I. Baugher. Three semester hours credit.

The aim of Lebanon Valley College Conservatory is to teach music historically and aesthetically as an element of liberal culture; to offer courses that will give a thorough and practical understanding of theory and composition; and to train artists and teachers.

The Conservatory of the college is one of a limited number of institutions offering courses in Public-School Music for teachers and supervisors approved for certification by the Pennsylvania State Council of Education.

In response to a demand for summer courses that will enable students in music to earn credits to meet deficiencies, shorten attendance required in the regular winter terms and acquire extra training in addition to that otherwise obtainable in the longer terms, the Conservatory has joined with the academic departments of the college in offering work during the summer term.

Summer students will enjoy the advantages of a wide variety of offerings in one of the most modern and complete institutions of its kind. The environment is in perfect harmony with the artistic nature of the instruction. Dormitory accommodations are provided for resident students.

Requirements for admission to the Conservatory are set forth in detail in the regular catalogue of the college, where the course requirements also appear. Those desiring full information on this subject should address Mary E. Gillespie, Director, Lebanon Valley College Conservatory, Annville, Pa.

During the summer of 1936 class-room instruction will be offered by Professor Carmean in the following courses:

Brass I.—This course provides elementary class instruction in learning to play any one of the following instruments: trumpet, cornet, alto, French horn, trombone, baritone or tuba. One semester hour credit.

Brass II.—Continuation of Brass I. A student may continue the study of the instrument started in Brass I or may choose another instrument. Brass I and Brass II may not be taken concurrently. One semester hour credit.

Violin I.—Elementary class instruction in violin is presented in this course. Tuning, playing scales and melodies as well as participating in ensemble work comprise the work of this class. Two semester hours credit.

Woodwind I.—Elementary class instruction in clarinet. Both Boehm and Albert systems are taught. One semester hour credit.

Woodwind II.—Continuation of Woodwind I. A student may continue the study of the instrument started in Woodwind I. Woodwind I and II may not be taken concurrently. One semester hour credit.

Orchestration.—This course provides guidance in arranging melodies for trios, and quartets and other ensembles. Scoring for small orchestra and small band will also be included. Only advanced students with experience and training satisfactory with the instructor are eligible to enter this course. Two semester hours credit.

LEBANON VALLEY COLLEGE

Professors Bender, Crawford, Malsh, and Campbell will be available during the summer term for private instruction in their respective fields. Persons interested in private instruction should address them individually and complete arrangements in advance of the opening date.

Professor Carmean will be available for private instruction in viola, cello, and string bass.
